## **DETAILED ACTION**

### ***Response to Amendment***

1. Claims 1-22 and 24-29 have been canceled. Claims 23 and 30-33 are pending. These claims have been amended, no new matter has been included. The rejections over the prior art of LOCHNER '064 have been withdrawn in view of the present cancellation of claims 11 and 24-28.

### ***Claim Rejections - 35 USC § 102***

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 23 and 30-33 rejected under 35 U.S.C. 102(b) as being anticipated by YEO et al. (US 5,399,174) as stated in previous office action.

YEO et al. discloses a composite material that comprises a layer of nonwoven fabric with an embossed pattern of densified areas separated by high-loft areas and a polymeric film laminated to the layer of fabric by means of the embossed pattern. (Refer to claim 1)

### ***Response to Arguments***

4. Applicant's arguments filed 7/17/06 have been fully considered but they are not persuasive.

a. Applicants argue that the YEO et al. construct does not provide for the intrusion or displacement of the polymeric film 46 into the web such that it is "present at" the surface of the web 27.

The Examiner does not agree with Applicants since the reference teaches that the layer of fabric in the polymeric film can be laminated during the embossing step by

simultaneously passing the polymeric film and the nonwoven fabric together through the nip between a pair of embossing rolls with at least one of the rolls being heated. (Col. 5, lines 5-10) It is the Examiner's position that such embodiment will provide for the claimed intrusion of the polymeric film into the web.

**5. THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
